

### **FOR IMMEDIATE RELEASE**

## **Friedman Memorial Airport to Conduct Emergency Exercise**

There will be no impact to passengers or Airline travel.

[Hailey, ID] – July 15, 2026 – FRIEDMAN MEMORIAL AIRPORT (“SUN”) will conduct an emergency preparedness exercise at 5pm on Wednesday, September 30, 2026.

The exercise will involve all local emergency agencies and organizations that are part of the Airport’s Emergency Plan. Volunteers will be recruited from the community to take part in a mock aircraft accident at the airport.

The exercise will begin at 5 p.m. and will run for approximately three hours. The Airport will close for approximately 15 minutes, at the very beginning of the drill, to allow for a realistic emergency response to the airport. There will be no impact to normal scheduled operations. SUN passengers, local businesses, and neighbors should be aware of emergency response vehicles operating around the airport during the exercise.

“This drill will provide an opportunity to test, exercise, evaluate and refine the emergency preparedness of the Airport, airlines, and mutual aid partners,” said

Deputy Director Operations & Maintenance, Oliver Nordlie. “We want to thank all our mutual aid partners, as well as our local hospitals and volunteers for their participation. Their support is vital to the preparedness of the Airport and the Wood River Valley.”

The FAA requires airports with a Class I Airport Operating Certificate, such as Friedman Memorial Airport, to hold a full-scale airport emergency plan exercise at least once every 36 consecutive months.

*This exercise occurs every three years at Friedman Memorial Airport.*

#### **ABOUT FRIEDMAN MEMORIAL AIRPORT**

Strategically situated in the heart of Idaho’s Sawtooth mountains, the Friedman Memorial Airport Authority (SUN) is committed to providing the Wood River Valley, surrounding communities and traveling public a safe, reliable and friendly aviation facility. The protection of life and property in the community as well as that of the aviation public is paramount. Teamwork, cooperation and effective application are the mechanisms of our service.
