

**NOTICE OF A REGULAR MEETING OF
THE FRIEDMAN MEMORIAL AIRPORT AUTHORITY**

PLEASE TAKE NOTICE that a regular meeting of the Friedman Memorial Airport Authority shall be held Tuesday, October 20, 2026 at 5:30 p.m. at the **Old Blaine County Courthouse Meeting Room** Hailey, Idaho.

This meeting is open to the public and attendees are able to attend in person or by web access. Web access instructions below:

Please join the meeting from your computer, tablet, or smartphone.

<https://www.microsoft.com/en-us/microsoft-teams/join-a-meeting>

Meeting ID: 241 310 773 002

Meeting Passcode: TSKRDd

You can also dial in using your phone.

United States: 1 (208) 996-1013

Dial In Conference ID: 436 433 38#

The proposed Agenda for the meeting is as follows:

**AGENDA
October 20, 2026**

- I. APPROVE AGENDA – ACTION ITEM**
- II. PUBLIC COMMENT (10 Minutes Allotted)**
- III. FRIEDMAN MEMORIAL AIRPORT AUTHORITY MEETING MINUTES OF:**
 - A. August 11, 2026, Regular Meeting – Motion to Approve – **Attachment #1 ACTION ITEM**
 - B. September 1, 2026, Regular Meeting – Motion to Approve – **Attachment #2 ACTION ITEM**
- IV. REPORTS**
 - A. Chair Report
 - B. Blaine County Report
 - C. City of Hailey Report
 - D. Staff Team Report
- V. AIRPORT STAFF BRIEF**
 - A. Noise Complaints in September – **Attachment #3**
 - B. Profit & Loss, ATCT Traffic Operations Count and Enplanement Data for August **Attachment #4 - #6**
 - C. Review Correspondence – **Attachment #7**
- VI. ACTION ITEMS (a vote may occur but is not required to be taken)**
 - A. NEW BUSINESS
 - 1. None
 - B. CONTINUING BUSINESS
 - 1. Parking Rates and Charges – Consideration of Approval – **ACTION ITEM**
- VII. UPDATES AND DISCUSSION**
 - A. NEW BUSINESS
 - 1. Airport Xeriscaping and Water Usage Reduction Initiatives – Update and Discussion
 - B. CONTINUING BUSINESS
 - 1. Miscellaneous
 - i. Staff Retirements & New Teammates – Update
 - 2. Construction and Capital Projects
 - i. Air Traffic Control Tower – 60% Design Threshold – Update
 - ii. Terminal Renovations – Update
 - 3. Airport Planning Projects
 - i. Infrastructure and Optimization Study – Update and Discussion
- VIII. PUBLIC COMMENT**
- IX. EXECUTIVE SESSION I.C. §74-206 (1),(b) Evaluation of employee matters**
- X. ADJOURNMENT**

FRIEDMAN MEMORIAL AIRPORT AUTHORITY MEETINGS ARE OPEN TO ALL INTERESTED PARTIES. SHOULD YOU DESIRE TO ATTEND A BOARD MEETING AND NEED A REASONABLE ACCOMMODATION TO DO SO, PLEASE CONTACT THE AIRPORT MANAGER'S OFFICE AT LEAST ONE WEEK IN ADVANCE BY CALLING 208-788-4956 OR WRITING TO 1616 AIRPORT CIRCLE, HAILEY, IDAHO 83333.

FMAA Meeting Brief 10-20-2026

III. FRIEDMAN MEMORIAL AIRPORT AUTHORITY MEETING MINUTES OF:

August 11, 2026, Regular Meeting – Motion to Approve – **Attachment #1 ACTION ITEM**
September 1, 2026, Regular Meeting – Motion to Approve – **Attachment #2 ACTION ITEM**

IV. REPORTS

A. Chair Report

This item is on the agenda to permit a Chair report if appropriate.

B. Blaine County Report

This item is on the agenda to permit a County report if appropriate.

C. City of Hailey Report

This item is on the agenda to permit a City report if appropriate.

D. Staff Team Report

This item is on the agenda to permit a Staff Team's report if appropriate.

V. AIRPORT STAFF BRIEF

A. Noise Complaints in September **Attachment #3**

B. Profit & Loss, ATCT Traffic Operations Count and Enplanement Data - **Attachments #4 - #6**

Attachment #4 is Friedman Memorial Airport Profit & Loss Budget vs. Actual (unaudited)

Attachment #5 are ATCT Traffic Operations Record comparison by month for August

Attachment #6 are Enplanements, Deplanements and Seat Occupancy data for August

FMAA Meeting Brief 10-20-2026

The following revenue and expense analysis is provided for Board information and review:

August 2025

Total Non-Federal Revenue	August, 2026	\$562,728
Total Non-Federal Revenue	August, 2025	\$751,389
Total Non-Federal Revenue	FY '26 thru August	\$7,637,734
Total Non-Federal Revenue	FY '25 thru August	\$7,156,849
Total Non-Federal Expenses	August, 2026	\$428,938
Total Non-Federal Expenses	August, 2025	\$356,484
Total Non-Federal Expenses	FY '26 thru August	\$4,174,986
Total Non-Federal Expenses	FY '25 thru August	\$4,272,237
Net Income excluding Federal Programs	FY '26 thru August	\$3,462,748
Net Income excluding Federal Programs	FY '25 thru August	\$2,884,612
Net Income to include Federal Programs	FY '26 thru August	\$-1,260,456
Net Income to include Federal Programs	FY '25 thru August	\$5,000,079

C. Review Correspondence – **Attachment #7**

VI. **ACTION ITEMS (a vote may occur but is not required to be taken)**

A. NEW BUSINESS

1. None

B. Continuing Business

1. Parking Rates and Charges – Consideration of Approval – **ACTION ITEM**

As discussed with the Board previously, the Airport has an obligation to maintain up-to-date and reasonable user rates in an effort to be self-sufficient and pay for both operational and future capital expenses. Revenue from items outlined in the Rates and Charges schedule is meant to fund the day-to-day operation, maintenance, and safety of the airport.

Maintaining and updating these fees is crucial to ensuring the long-term financial health of the airport. As with all fee setting, the goal of this update is to set fees and rates at a fair market value, tailored to our specific needs, and at a rate that is consistent and scalable across all airport users.

Staff and their airport parking consultant Chris Johnson have undertaken an extensive analysis of historical parking rates, comparisons from other similarly situated airports, and forecasting of proposed rates. The rate structure proposed simplifies a new parking rate

FMAA Meeting Brief 10-20-2026

structure for parking lot users that will help solve the issues previously presented, including capacity management and congestion at the exit gate.

Parking Rates				
0 to 1 Hr.	Hour	\$0.00	New	11/01/26
1 Hr. - 3 Hrs.	Hour	\$6.00	New	11/01/26
3 Hrs. - 24 Hrs.	Hour	\$18.00	New	11/01/26

VII. UPDATES AND DISCUSSION

A. NEW BUSINESS

1. Airport Xeriscaping and Water Usage Reduction Initiatives – Update and Discussion

Staff are pleased to share with the Board a proactive initiative to significantly reduce water consumption associated with irrigation within and surrounding the Airport's parking lot system. Historically, during peak summer months, irrigation of the grass within the parking lots has exceeded 400,000 gallons per month.

Cognizant of the fact that our Airport seeks to balance aesthetics and customer experience with the need to be a responsible steward of our high-desert environment, staff have determined that maintaining lush, green grass is not, by itself, a significant factor in presenting a world-class facility to the traveling public. Rather, travelers value comfortable amenities, convenience, efficiency, and, above all, a safe and well-maintained facility. Staff believe a more environmentally responsible approach is to transition these areas to tasteful xeriscaping along the borders and landscaped areas of the parking lots. Over the coming weeks, staff will work to modify the existing sprinkler system, install weed-barrier fabric, and spread clean, locally sourced 2-inch crushed stone. All existing trees, shrubs, plants, and bushes will remain intact and will continue to be appropriately irrigated and maintained.

While estimates are preliminary and not based on a formal analysis, staff believe this initiative could reduce water consumption by approximately 200,000 to 300,000 gallons per month during peak irrigation periods. In addition to conserving water, the project is expected to reduce ongoing mowing, irrigation maintenance, and other landscaping requirements.

Staff have coordinated with the FMAA Board Chair and Vice Chair on this initiative and have already begun these efforts. We are proud to continue identifying practical and innovative ways to reduce the Airport's environmental impact while maintaining an attractive, welcoming, and world-class facility for our traveling public and community.

FMAA Meeting Brief 10-20-2026

B. CONTINUING BUSINESS

1. Miscellaneous

i. Staff Retirements & New Teammates – Update

Staff would like to extend our sincere appreciation and gratitude to two incredible team members for their service to the Friedman Memorial Airport Authority.

First, Airport Operations/ARFF Specialist Deano Miller retires this week after more than nine years of service at our Airport. Deano was born and raised in the Wood River Valley and is the very definition of a “jack of all trades.” He is the person who, when everything seems to be going wrong, somehow finds a creative solution.

For more than nine years, Deano has professionally maintained our infrastructure and buildings and has been instrumental in numerous improvements throughout the Airport, including the replacement of our ageing boiler systems. Initiatives spearheaded by Deano have resulted in a 66% reduction in natural gas usage in the terminal building, reduced electrical consumption through LED lighting projects, reduced wastewater, and the introduction of more efficient plumbing fixtures.

We wish Deano well as he and his wife, Shelly, look forward to spending more time with their dogs, Storm and Thunder. And to Deano, we say, “Keep the rubber side down,” as he looks forward to putting many more miles on his motorcycle.

Second, we wish our IT Administrator, Teresa McGoffin, “blue skies and tailwinds” as she retires after four years with the Airport. Prior to joining the Airport team, Teresa spent an entire career with the Blaine County School District. Teresa has brought tremendous knowledge and dedication to the Airport, and we are grateful for her service. In retirement, she plans to put some miles on her fire-engine-red electric VW Bus as she travels and explores the country.

It would be impossible to list the accomplishments both of these individuals have accomplished for us.

While we are incredibly proud of both Deano and Teresa as they enter this new chapter, their departures will leave difficult holes to fill.

With their departures, we are also pleased to share with the Board that two new team members will be joining us.

This week, Daniel “Danny” Robertson will join the team as an Airport Operations/ARFF Specialist I. Danny graduated from Eastern Washington University with a degree in

FMAA Meeting Brief 10-20-2026

Aviation Management and holds a private pilot certificate. Most recently, he served as an Airport Management Intern with Auburn Municipal Airport in Washington State.

Matthew Schwartz will be joining the FMAA team as our new IT Administrator and comes to us from Sun Valley Company. Matt is a graduate of Boise State University with a degree in IT and Cybersecurity and is currently pursuing his master's degree in the same fields.

We are grateful for the contributions Deano and Teresa have made to FMAA, and we are excited to welcome Danny and Matt as they begin their careers with our team. We look forward to introducing our new team members to the Board in person in the near future.

2. Construction and Capital Projects

i. Air Traffic Control Tower – 60% Design Threshold – Update

Staff are pleased to report that engineering and architectural teams have hit the 60% design threshold for design of the new Airport Traffic Control Tower. Staff, Air Traffic Controllers, and consulting teams have a meeting scheduled for October 7th where the plans will be reviewed in detail. This project remains on track and on schedule but, as always, the availability and scheduling of Federal Funding will be a driving factor in determining or estimating an actual construction timeline. Airport staff will keep the FMAA Board updated on any developments related to this vital project.

ii. Terminal Renovations – Update

Progress continues on evaluating improved layout concepts for the interior of the main terminal building. Over the past several months, staff, architects, and engineers have met with key stakeholders and tenants, including airline representatives and the TSA, to evaluate opportunities for improving the passenger screening checkpoint and baggage handling system.

There is broad agreement among stakeholders that improvements to the TSA passenger screening checkpoint remain the highest priority for addressing passenger flow, congestion, efficiency, and ADA accessibility. The project team believes meaningful improvements to the checkpoint can be accomplished effectively, with straightforward project phasing which will minimize impacts to travelers and ongoing terminal operations.

In contrast, evaluation of the baggage handling system has identified greater complexity. Potential improvements are constrained by the physical space available within the existing terminal, as well as ergonomic considerations for the employees who use the system. While these challenges are not insurmountable, the study increasingly indicates that the Airport's

FMAA Meeting Brief 10-20-2026

near-term focus should remain on the project that is currently the most realistic, attainable, and impactful: improvements to the TSA passenger screening checkpoint.

Next steps will include developing a preliminary cost estimate for the TSA checkpoint improvements, which will allow FMAA to strategically incorporate the project into the Airport's Capital Improvement Plan (CIP). Concurrently, the team will continue working with stakeholders to explore baggage handling system and ticket counter configurations that are practical, effective, and feasible within the constraints of the existing terminal building.

3. Airport Planning Projects

i. Airport Infrastructure and Optimization Study – Update

Airport Staff, the Study Advisory Committee, our talented consulting teams, and the FAA, working in partnership, have completed the final draft of Phase 1 of the Infrastructure and Optimization Study.

At the request of the FAA, Phase 1 was intended to update previous planning efforts by evaluating aviation activity and passenger forecasts, identifying future facility and infrastructure needs, and exploring potential airfield layout options that could better align the Airport with FAA design standards.

As a reminder, Phase 1 is not intended to select or advance a specific development alternative. Rather, the work provides updated information that can serve as a foundation for more detailed conversations with the FAA, the Board, and our community regarding the Airport's long-term future.

Pending receipt of FAA review comments, the team plans to present the findings of Phase 1 to the FMAA Board in November or December. Given the high-level and preliminary nature of this phase, no Board action is anticipated or required at that time.

Phase II of the study, should FMAA elect to pursue it, would involve a more formal Airport Layout Plan (ALP) update and a deeper evaluation of the Airport's long-term infrastructure needs and alternatives. That process would include opportunities for public involvement, discussion, and feedback before any future planning decisions are made.

VIII. PUBLIC COMMENT

IX. EXECUTIVE SESSION I.C. §74-206 (1),(b) Evaluation of employee matters

X. ADJOURNMENT

**MINUTES OF A REGULAR MEETING
OF THE
FRIEDMAN MEMORIAL AIRPORT AUTHORITY
August 11, 2026
5:30 P.M.**

IN ATTENDANCE:

BOARD MEMBERS:

Board Chair – Martha Burke, Vice Chair – Muffy Davis, Secretary – Angenie McCleary, Board Members – Dale Bathum, Jacob Greenberg, Dustin Stone, Lindsay Mollineaux, Treasurer – Ron Fairfax

FRIEDMAN MEMORIAL AIRPORT STAFF:

Airport Director – Tim Burke, Deputy Director, Operations and Maintenance – Oliver Nordlie, Deputy Director, Finance & Administration – Brian Blackburn, Administrative Coordinator II – Janice Hicks, Business Operations Coordinator – Eliana Wolper.

CONSULTANTS:

Ardurra – Nathan Cuvala

AIRPORT LEGAL COUNSEL:

Lawson Laski Clark PLLC – Jim Laski

CALL TO ORDER: The meeting was called to order at 5:30 p.m. by Board Chair Burke

I. APPROVE AGENDA

A motion to approve the agenda as presented.

MOTION: *Made by Vice Chair Davis to approve the agenda as presented. Seconded by Board Member Greenberg.*

**PASSED UNANIMOUSLY
1:26**

II. PUBLIC COMMENT

None.

1:51

III. PUBLIC HEARING – ACTION ITEM

A. FY 2027 Budget – Motion to Approve – **Attachment #1 - #2 ACTION ITEM**

Brian Blackburn, Deputy Director of Finance & Administration, briefly described the finalized proposed budget and stated the numbers have not changed since the July meeting presentation.

The Board discussed that the training budget will be higher this fiscal year due to the inclusion of the Triennial Full Scale Emergency Exercise. This exercise will include a airplane fire prop this year.

MOTION: *Made by Board Member Greenberg to approve the proposed Friedman Memorial Airport Expenditure Budget for FY 2027 in the amount of \$27,031,612. Seconded by Secretary McCleary.*

**PASSED UNANIMOUSLY
6:06**

IV. APPROVE FMAA MEETING MINUTES

- A. July 7, 2026, Regular Meeting – Motion to Approve – **Attachment #3 ACTION ITEM**

MOTION: *Made by Board Member Stone to approve the minutes as presented. Seconded by Vice Chair Davis.*

PASSED UNANIMOUSLY

6:29

V. REPORTS

- A. Chair Report

No report given.

- B. Blaine County Report

No report given.

- C. City of Hailey Report

No report given.

- D. Fly Sun Valley Report

No report given.

7:23

- E. Airport Team Reports (see Power Point Presentation)

Airport Director Burke stated condolences and solidarity with the Twin Falls community following the incident on August 1st. Director Burke reported that July was a busy month with parades, wildfires, and holiday traffic. There was a small fire along the highway south of the Flying Hat Ranch which was extinguished quickly and the fence will be fixed quickly.

Airport Director Burke reported that American Airlines has confirmed that they will be operating the Embraer 175 into Sun Valley this winter which will increase their ability to operate in poor weather conditions and visibility.

Director Burke reported that he and Nathan Cuvala of Ardurra have been in close contact with the FAA regarding federal funding for the new Air Traffic Control Tower. There is not currently discretionary funding programmed for the tower but there are other options and the project is a high priority for the FAA.

Airport Director Burke reported on the activity stats for July and reported that on the arrival day for the Allen and Company Fly-In event there were 308 total operations. Staff would like to recognize Salt Lake Center, our ATCT, and Atlantic Aviation for a job well done and smooth operations.

17:17

VI. AIRPORT STAFF BRIEF

- A. Noise Complaints in May.

- B. Profit & Loss, ATCT Traffic Operations Count and Enplanement Data (**See Attachment #4-#8**)

- C. Airport Commercial Flight Interruptions (unofficial)
- D. Review Correspondence

VII. ACTION ITEMS

A. NEW BUSINESS

1. Surplus Property Disposal – Consideration of Approval – **ACTION ITEM**

Airport Director Burke asked the Board to consider declaration of a 1985 Ford C800 De-Ice Truck as surplus property so that it can be disposed of. The item was not procured using FAA AIP funds and can be disposed of through the standard state surplus disposal process, which is a sealed bid auction.

MOTION: *Made by Board Member Stone to approve the property list, declare the item on the list as surplus property, and approve the sealed bid process for disposal. Seconded by Board Member Greenberg.*

PASSED UNANIMOUSLY
19:15

B. CONTINUING BUSINESS

1. P2P Car Rental – TURO Operating Agreement – Consideration of Award – **ACTION ITEM – Attachment #8**

Airport Director Burke asked the Board to consider approval of the agreement with Turo Car Rental. He thanked Brian Blackburn and Eliana Wolper for the work in completing the negotiation process for the agreement. Director Burke stated that Turo is already operating on the airport and that this agreement just formalizes their presence and ensures that they are paying their fair share to operate. The Board discussed LOT dollars which will be organized by the City of Hailey, not airport staff.

Motion: *Made by Board Member Greenberg to approve the TURO operating agreement at the Friedman Memorial Airport. Seconded by Board Member Stone.*

PASSED UNANIMOUSLY
23:31

VIII. UPDATES AND DISCUSSION

A. NEW BUSINESS

1. Wildland Fire Aircraft Activity and Unauthorized Drone Activity – Update

Airport Director Burke reported on the two wildfires that occurred in the area in July. Staff coordinated closely with Incident Command, local ATCT, South Idaho Interagency Dispatch Center, and the FAA Command Center. Aerial firefighting crews coordinated with ATCT. There was no impact to aircraft operations at the airport.

Airport Director Burke reported that on July 14th unauthorized drones were observed over downtown Bellevue. Drones threatens both aerial firefighting operations and regular aircraft operations. The airport views this as an opportunity to educate the public on FAA Part 107 rules which govern commercial drone operations and drone operations within a 5 mile radius of the Friedman Memorial

Airport. Within the 5 mile radius, drone operators need FAA authorization to fly a drone. Fines from the FAA can exceed \$10,000.

There is a system called the Low Altitude Authorization and Notification Capability (LAANC) System from the FAA which allows operators to obtain authorization for drone operations and notifies Air Traffic Control when and where drones will be operating.

The Board discussed operational altitude maximums and discussing this with local realtors and companies so they are aware of the restrictions.

2. BCSO & Hailey Police Department EVOC Training – Discussion

Airport Director Burke reported that Hailey Police and the Blaine County Sheriff's Department will be using part of the airport for their EVOC training on September 15th and 16th. There is an expected law enforcement presence and it will not have a major impact on operations.

B. CONTINUING BUSINESS

1. Miscellaneous

i. Future Aeronautical Development RFP – Clay Lacy Lease Agreement – Update

Airport Director Burke gave an update on the Clay Lacy lease agreement. On November 5th, 2024, the Board accepted the recommendation of the Selection Committee and approved the draft lease agreement. The lease agreement was delayed by the Environmental Assessment and Reassessment. In March 2026, after final legal description was prepared airport staff reengaged with Clay Lacy to negotiate the final terms of the lease agreement.

The changes to the lease agreement include changes to revenue shares, increasing to 8% across a majority of revenue categories while hangar sales, transient aircraft parking and transient aircraft hangar rentals are at 5%. While Clay Lacy will remain subject to the airport minimum standards, the construction deadline for the originally proposed 70,000 sqft hangars to 10 years. This will allow them to construct only the facilities necessary for their business. They will still have to complete the proposed facilities within 10 years.

ii. Meet the Fleet – September 19th – Save the Date

The annual Meet the Fleet event is occurring on September 19th from 11am to 2pm. The Kiwanis Club will provide hamburgers and hot dogs. The Hailey Fire Department is also holding their annual Chili Cook Off with proceeds from the event benefitting local fire departments and local charities.

To sign up for the Chili Cook Off contact Mike McKenna with the Valley Chamber.

iii. Airport Rates and Charges & Parking Rates – Update

Eliana Wolper, Business Operations Coordinator, presented on the update of the rates and charges schedule at the airport. These have not been updated in 10 years. The Airport has an obligation to maintain up-to-date, reasonable, and not unjustly discriminatory fees to offset operational expenses. Staff are going through every rate at the airport to ensure that they meet these standards.

In this process, parking rates are being updated. Staff proposed a new rate structure where the 1st hour of parking is free and simplified the rate structure beyond 1 hour. Please see slideshow for more details of the parking rates and data used to set them.

The Board discussed parking rates, the efficiency of the parking lot, and if this rate increase is above the level that requires a public hearing. Staff will determine if a public hearing is needed and ensure that when the Board votes on the news rates, all necessary rules have been followed.

Chris Johnson, with CAJ Consulting, presented some of the history of the parking challenges at the airport. He stated that the rates as presented are right within fair market value and presented some additional data on parking rates.

2. Construction and Capital Projects
 - i. None
3. Airport Planning Projects
 - i. None

1:01:06

IX. PUBLIC COMMENT

Public comment made by Glass Cockpit Aviation owner John Strauss who is offering a 30 minute scenic flight as a raffle item during Meet the Fleet.

1:15:31

The Board discussed the ongoing progress on changes to the terminal layout related to TSA delays and people missing their flights. Staff will be meeting with airline stakeholders in a week to discuss the potential layout options.

X. ADJOURNMENT (6:38pm)

The August 11, 2026, Regular Meeting of the Friedman Memorial Airport Authority was adjourned at 6:38p.m.

Angenie McCleary, Secretary

** Additional resources/materials that should be reviewed with these meeting minutes include but are not limited to the Friedman Memorial Airport Authority Board Packet briefing, the PowerPoint presentation prepared for this meeting and any referenced attachments.*

**MINUTES OF A REGULAR MEETING
OF THE
FRIEDMAN MEMORIAL AIRPORT AUTHORITY
September 1, 2026
5:30 P.M.**

IN ATTENDANCE:

BOARD MEMBERS:

Board Chair – Martha Burke, Vice Chair – Muffy Davis, Secretary – Angenie McCleary, Board Members – Dale Bathum, Jacob Greenberg, Lindsay Mollineaux

FRIEDMAN MEMORIAL AIRPORT STAFF:

Airport Director – Tim Burke, Deputy Director of Finance & Administration – Brian Blackburn, Deputy Director of Operations and Maintenance – Oliver Nordlie, Administrative Coordinator II – Janice Hicks, Business Operations Coordinator – Eliana Wolper

CONSULTANTS:

Nathan Culvala- Ardurra

AIRPORT LEGAL COUNSEL:

Lawson Laski Clark PLLC – Jim Laski

CALL TO ORDER: The meeting was called to order at 5:30 p.m. by Board Chair Burke

I. APPROVE AGENDA

A motion to approve the agenda as presented.

MOTION: *Made by Board Member Greenberg to approve the agenda as presented. Seconded by Vice-Chair Davis.*

***PASSED UNANIMOUSLY
2:34***

II. PUBLIC COMMENT

None.

4:05

III. APPROVE FMAA MEETING MINUTES

A. August 11, 2026 Regular Meeting – Motion to Approve – **Attachment #1 ACTION ITEM**

Approval of the minutes was deferred to the October meeting.

IV. REPORTS

A. Chair Report

No report given.

B. Blaine County Report

No report given.

C. City of Hailey Report

No report given.

D. Fly Sun Valley Report

No report given.

E. Airport Team Reports

Airport Director Burke reported that two new Airport Ops staff members completed Aircraft Rescue Fire Training this week. Another new Airport Ops staff member will be joining the team in October, he is the current intern in Auburn, WA. He has an aviation degree and previous aviation experience.

The Airport will hold its emergency exercise on September 30th.

The Board discussed noise complaints and the process for handling complaints. Educational outreach is ongoing. Every violator of the noise reduction program is contacted and educated. The Board discussed the impact of the based air ambulance helicopters and what areas those helicopters are responding to, including heading in all directions from Blaine County to assist other areas of the state.

Airport Director Burke reported that Staff has accepted delivery of the new snow blower which will be helpful for winter snow removal operations.

13:31

V. AIRPORT STAFF BRIEF

A. Noise Complaints as of August 27 – **Attachment #2**

B. Profit & Loss, ATCT Traffic Operations Count and Enplanement Data (**See Attachment #3-#5**)

C. Review Correspondence

VIII. PUBLIC COMMENT

John Strauss of Blaine County gave public comment encouraging attendance at the Meet the Fleet event and announced his donation of a scenic flight for the raffle prize.

16:35

IX. ADJOURNMENT (5:44pm)

The September 1, 2026, Regular Meeting of the Friedman Memorial Airport Authority was adjourned at 5:44p.m.

Angenie McCleary, Secretary

** Additional resources/materials that should be reviewed with these meeting minutes include but are not limited to the Friedman Memorial Airport Authority Board Packet briefing, the PowerPoint presentation prepared for this meeting and any referenced attachments.*

Friedman Memorial Airport Noise Inquiry Form

Date Received: 14-Sep-2026 16:35 MDT

Who is submitting (Community Member or Airport Authority on behalf of community member): I am a community member

Contact Information:

- **Name:** Sarah Colmant
- **Phone Number for call back:** On File **Email:** On File
- **Address:** [43.50193533761184,-114.28656578063966](#)
- **Do you wish to be contacted by the Airport?** No

Noise Incident Information

- **Time of incident:** 2026-Sep-14 16:34
- **Type of Incident (Overflight, Low Flying, Circling, Hovering, Vibration/Rumbling, Late Night/Early Morning, Sustained Noise, Frequency of Flights, Unusually Loud, Other):** Low flying, Unusually loud
- **Comments:** Every elected official and unelected government bureaucrat in this valley should be ashamed of themselves to allow whatever that abomination of an airplane was today. I have never heard anything so loud in my life. I purchased this house over three years ago and the traffic continues to get worse!

That literally rattled my windows, woke up my baby, and gave my dog anxiety. There are people in this community who have PTSD who cannot tolerate this type of noise.

I don't know why we continue to let these pilots do whatever they want just so they can get a thrill out of antagonizing our community.

No need to call back. I know none of you care.

- **Attachments, if any (photo, video, recording):**

Important Information:

Public Records Law

- Per Idaho's Public Records Laws, all correspondence sent by or to Friedman Memorial Airport staff may be subject to public disclosure. All submissions using this form are a matter of public record.
- Entries submitted without names or complaints that do not directly correlate to aircraft operations at Friedman Memorial Airport may not be considered for review.

Jurisdiction of Airspace

- The Friedman Memorial Airport Authority (FMAA) does not hold jurisdiction over federal airspace, flight plans, patterns, or paths of aircraft. The Federal Aviation Administration (FAA) has sole authority for U.S. national airspace and the regulations that govern flight operations. Consequently, FMAA cannot reroute flights, establish enforceable curfews, or discriminate against aircraft operators regardless of the time of day, aircraft type, or operation type. Air Traffic Controllers (ATC), alone, have the authority to direct aircraft into/out of airports, and pilots, alone, are responsible for ensuring that their flights, including ground operations, are conducted in accordance with the FAA's established regulations.
- Further, in 1990, Congress enacted the Aircraft Noise and Capacity Act (ANCA), which prohibits airports from restricting flights by time of day, frequency, aircraft type, or location. Since FMAA is an open-access, public-use airport, it *cannot* discriminate against any aircraft using this facility 24/7. To do otherwise violates the Interstate Commerce Clause of the U.S. Constitution.
- FMAA does, however, proactively manage a highly effective noise abatement program and voluntary curfew. Airport management contacts all pilots whose operations violate the voluntary curfew. The airport uses this opportunity to educate the aircraft operator on these operations' adverse effects on the

community.

SC

I have read and understood the above information:

Outcome/Resolution (Airport response)

No response requested

Friedman Memorial Airport Noise Inquiry Form

Date Received: 14-Sep-2026 10:46 MDT

Who is submitting (Community Member or Airport Authority on behalf of community member): I am a community member

Contact Information:

- **Name:** Svea Grover
- **Phone Number for call back:** On File **Email:** On File
- **Address:** [911 Eastridge Dr, Hailey, Idaho, 83333](#)
- **Do you wish to be contacted by the Airport?** Yes

Noise Incident Information

- **Time of incident:** 2026-Sep-14 10:40
- **Type of Incident (Overflight, Low Flying, Circling, Hovering, Vibration/Rumbling, Late Night/Early Morning, Sustained Noise, Frequency of Flights, Unusually Loud, Other):** Vibration/rumbling, Sustained Noise, Unusually loud
- **Comments:** What the heck was that unbelievable noise? And why were those type of planes here and allowed to land/take off from here????

The noise and air pollution from this airport has become nearly unbearable and is greatly reducing our quality of life for those of us living anywhere near it. I'm very concerned about long term health impacts as well and feel the city air airport authority have no intention of balancing health/quality of life and airport traffic any longer.

I would like to know what type of air quality monitoring are you doing if any, and what the results are. This should be publicly available information.

Svea Grover

- **Attachments, if any (photo, video, recording):**

Important Information:

Public Records Law

- Per Idaho's Public Records Laws, all correspondence sent by or to Friedman Memorial Airport staff may be subject to public disclosure. All submissions using this form are a matter of public record.
- Entries submitted without names or complaints that do not directly correlate to aircraft operations at Friedman Memorial Airport may not be considered for review.

Jurisdiction of Airspace

- The Friedman Memorial Airport Authority (FMAA) does not hold jurisdiction over federal airspace, flight plans, patterns, or paths of aircraft. The Federal Aviation Administration (FAA) has sole authority for U.S. national airspace and the regulations that govern flight operations. Consequently, FMAA cannot reroute flights, establish enforceable curfews, or discriminate against aircraft operators regardless of the time of day, aircraft type, or operation type. Air Traffic Controllers (ATC), alone, have the authority to direct aircraft into/out of airports, and pilots, alone, are responsible for ensuring that their flights, including ground operations, are conducted in accordance with the FAA's established regulations.
- Further, in 1990, Congress enacted the Aircraft Noise and Capacity Act (ANCA), which prohibits airports from restricting flights by time of day, frequency, aircraft type, or location. Since FMAA is an open-access, public-use airport, it *cannot* discriminate against any aircraft using this facility 24/7. To do otherwise violates the Interstate Commerce Clause of the U.S. Constitution.
- FMAA does, however, proactively manage a highly effective noise abatement program and voluntary

curfew. Airport management contacts all pilots whose operations violate the voluntary curfew. The airport uses this opportunity to educate the aircraft operator on these operations' adverse effects on the community.

I have read and understood the above information:

Outcome/Resolution (Airport response)

Dear Ms. Grover,

Thank you for contacting the Friedman Memorial Airport via the online noise comment form on September 14, 2026 at 10:46 am.

The noise you heard today, at 10:37am, was from the departure of two United States military aircraft; specifically, United States Navy F/A-18 Super Hornet fighter jets that departed to the south. The aircraft then turned around south of Bellevue and flew north over the airport prior to departing the area towards the east. As you can likely imagine, the United States military is entitled to use any public-use airport in the nation. Furthermore, in most circumstances, the military is legally-exempt from noise, speed, and altitude restrictions. These flights were fully compliant with Federal Aviation Administration (FAA) regulations governing these types of operation.

While not common here at SUN, occasionally, the military can and will operate in and out of Friedman Memorial airport as a refueling location, overflight through the valley, and will conduct training operations in the mountainous terrain surrounding the Wood River Valley.

As a matter of record, the Friedman Memorial Airport Authority is an open-access, public-use airport facility that is governed by numerous federal grant assurances. Additionally, in 1990, Congress enacted the Aircraft Noise and Capacity Act (ANCA) that prohibits airports from restricting flights by time-of-day, frequency, aircraft type, or location. Consequently, as a public airport, we cannot discriminate against any aircraft using this facility 24/7. Doing otherwise would be a violation of the Interstate Commerce Clause of the US Constitution, ANCA, and federal grant assurances.

The Federal Aviation Administration has exclusive and preemptive authority over all US national airspace. Pilots have responsibility for flight procedures consistent with FAA regulations and only FAA Air Traffic Controllers have authority to route flights once they are airborne.

Thank you for contacting us,

Tim Burke

Friedman Memorial Airport Noise Inquiry Form

Date Received: 14-Sep-2026 10:54 MDT

Who is submitting (Community Member or Airport Authority on behalf of community member): I am a community member

Contact Information:

- **Name:** Bruce Malone
- **Phone Number for call back:** On File **Email:** On File
- **Address:** [641 Buckhorn Dr, Hailey, Idaho, 83333](#)
- **Do you wish to be contacted by the Airport?** Yes

Noise Incident Information

- **Time of incident:** 2026-Sep-14 10:25
- **Type of Incident (Overflight, Low Flying, Circling, Hovering, Vibration/Rumbling, Late Night/Early Morning, Sustained Noise, Frequency of Flights, Unusually Loud, Other):** Unusually loud
- **Comments:** Jet engine taking off to the south. Sounded like a warplane. What's up?
- **Attachments, if any (photo, video, recording):**

Hi Svea,

It's not common practice for Airport to maintain air quality sensors around our near airports so unfortunately, I don't have any specific data to point towards. We don't have air quality sensors set up anywhere or the means to scientifically analyze data if we did.

With that said, the airport did conduct a greenhouse gas emissions study in 2023 that analyzed all the sources of emissions from equipment operations, to employee commutes, to aircraft operations.

That can be viewed here

<https://iflysun.com/greenhouse-gas-emissions/>

Hopefully, that helps.

Subject: Re: New Noise Complaint

Thanks for the email Tim,

That all makes sense. We're very close to the north end of the airport so it was a bit jarring to hear - windows and whole house shook as you can imagine. I'd love to know about any air quality testing happening as this is an ongoing concern for many of us close to the airport.

Best,

Svea

On Mon, Sep 14, 2026 at 11:45 AM Timothy Burke <Tim@iflysun.com> wrote:

Dear Ms. Grover,

Thank you for contacting the Friedman Memorial Airport via the online noise comment form on September 14, 2026 at 10:46 am.

The noise you heard today, at 10:37am, was from the departure of two United States military aircraft; specifically, United States Navy F/A-18 Super Hornet fighter jets that departed to the south. The aircraft then turned around south of Bellevue and flew north over the airport prior to departing the area towards the east. As you can likely imagine, the United States military is entitled to use any public-use airport in

the nation. Furthermore, in most circumstances, the military is legally-exempt from noise, speed, and altitude restrictions. These flights were fully compliant with Federal Aviation Administration (FAA) regulations governing these types of operation.

While not common here at SUN, occasionally, the military can and will operate in and out of Friedman Memorial airport as a refueling location, overflight through the valley, and will conduct training operations in the mountainous terrain surrounding the Wood River Valley.

As a matter of record, the Friedman Memorial Airport Authority is an open-access, public-use airport facility that is governed by numerous federal grant assurances. Additionally, in 1990, Congress enacted the Aircraft Noise and Capacity Act (ANCA) that prohibits airports from restricting flights by time-of-day, frequency, aircraft type, or location. Consequently, as a public airport, we cannot discriminate against any aircraft using this facility 24/7. Doing otherwise would be a violation of the Interstate Commerce Clause of the US Constitution, ANCA, and federal grant assurances.

The Federal Aviation Administration has exclusive and preemptive authority over all US national airspace. Pilots have responsibility for flight procedures consistent with FAA regulations and only FAA Air Traffic Controllers have authority to route flights once they are airborne.

Thank you for contacting us,

Tim Burke

Friedman Memorial Airport Noise Inquiry Form

Date Received: 9/14/26, 10:46 AM

Who is submitting (Community Member or Airport Authority on behalf of community member): I am a com

Contact Information:

- **Name:** Svea Grover
- **Phone Number for call back:** On File **Email:** On File
- **Address:** [911 Eastridge Dr, Hailey, Idaho, 83333](#)
- **Do you wish to be contacted by the Airport?** Yes

Noise Incident Information

- **Time of incident:** 9/14/26, 10:40 AM
- **Type of Incident (Overflight, Low Flying, Circling, Hovering, Vibration/Rumbling, Late Night/Early Morning Noise, Frequency of Flights, Unusually Loud, Other):** Vibration/rumbling Sustained Noise Unusually loud
- **Comments:** What the heck was that unbelievable noise? And why were those type of planes here and all from here????

The noise and air pollution from this airport has become nearly unbearable and is greatly reducing our quality of life for us living anywhere near it. I'm very concerned about long term health impacts as well and feel the city has no intention of balancing health/quality of life and airport traffic any longer.

I would like to know what type of air quality monitoring are you doing if any, and what the results are. This is the only available information.

Svea Grover

- **Attachments, if any (photo, video, recording):**

Important Information:

Public Records Law

- Per Idaho's Public Records Laws, all correspondence sent by or to Friedman Memorial Airport staff may be subject to public disclosure. All submissions using this form are a matter of public record.
- Entries submitted without names or complaints that do not directly correlate to aircraft operations at Friedman Memorial Airport may not be considered for review.

Jurisdiction of Airspace

- The Friedman Memorial Airport Authority (FMAA) does not hold jurisdiction over federal airspace, flight patterns, or operations of aircraft. The Federal Aviation Administration (FAA) has sole authority for U.S. national airspace and the regulations that govern flight operations. Consequently, FMAA cannot reroute flights, establish enforceable curfews, or control aircraft operators regardless of the time of day, aircraft type, or operation type. Air Traffic Controllers (ATIS) have the authority to direct aircraft into/out of airports, and pilots, alone, are responsible for ensuring that their flight operations, are conducted in accordance with the FAA's established regulations.
- Further, in 1990, Congress enacted the Aircraft Noise and Capacity Act (ANCA), which prohibits airports from restricting aircraft by time of day, frequency, aircraft type, or location. Since FMAA is an open-access, public-use airport, it cannot restrict against any aircraft using this facility 24/7. To do otherwise violates the Interstate Commerce Clause of the U.S. Constitution.
- FMAA does, however, proactively manage a highly effective noise abatement program and voluntary curfew. The airport management contacts all pilots whose operations violate the voluntary curfew. The airport uses this opportunity to discuss with aircraft operator on these operations' adverse effects on the community.

I have read and understood the above information:

Subject: RE: Aircraft Passenger Drop

Hi Mr. Corby,

Thank you for your email. To be completely frank, unfortunately, this isn't the first complaint that we have received regarding Atlantic's "surge pricing" model. It's disappointing, and it puts us, as a public airport, in a tight spot.

In the interest of complete transparency, I want to share that the airport does not have anything to gain from their fees. Our rates and charges (that you likely see via landing fee billing) are transparently posted on our website here: https://iflysun.com/wp-content/uploads/2023/04/RATES_CH.23-v1.0-10.01.2022-approved.pdf

These fees are Board-approved, fair, reasonable, not unjustly discriminatory, and compliant with all FAA Grant Assurances. They do not change based on the time of year, nor do they have unpredictable surge pricing. They, along with all of our fees, exist solely to offset airfield operating costs and the airport's capital improvement plan. They are completely disconnected from FBO fees and vice versa.

Our legal ability to govern private business while navigating the complexity of our grant assurances is a balancing act that it seems no airport with a sole provider has been able to perfect. Some good news that I can share is that a second FBO, Clay Lacy Aviation, is coming to SUN, and we are welcoming the competition in both services and fuel availability with open arms. We recently got through the hurdles of the FAA environmental process and are working out the final terms of a lease agreement. I'm hoping they can start development as early as this spring.

As it sounds like you may already be aware, the airport has implemented a first-of-its-kind program among commercial service airports called the BlueDiamond system. We had to jump through hoops with our federal TSA partners to make it a reality, but it allows small GA operators (12,500 lbs./60 ft. wingspan or less) to utilize transient parking and let themselves through a gate using a Bluetooth-based app on one of our card readers. That is available here: <https://veoci.com/v/p/form/xzy26suq62s5>

This allows transient GA operators, within those size limitations, to circumvent the FBO entirely.

With that said, unfortunately, we are simply unable to accommodate self-parking and drop-and-go operations of larger aircraft due to jet blast and wingtip clearance concerns. The size and weight limitations are directly correlated with the dimensional capabilities of our transient tie-down spots, and this is what the Airport was comfortable allowing. We chose these figures because we, as the airport authority, are unable to marshal and safely park aircraft. While I understand that Citations and even Challengers are far smaller than G650s and Global Expresses, once we accommodate one group that is not tied to an objective dimensional number, we must accommodate all. Having G650s conducting drop-and-go operations without wing walkers on Fourth of July weekend is a risk we cannot assume.

I'm always happy to have a phone call and listen to any concerns. My cell phone is 208-721-3074.

For now, we sincerely hope that the BlueDiamond system helps with your PC-12 operations.

Tim

Subject: Aircraft Passenger Drop

Hi Tim:

I'm writing as the Managing Partner of Rhino Air, LLC, a small Part 91 aircraft management company, to ask for your help with a problem I haven't been able to solve on my own.

Several of the families we fly have homes in the Wood River Valley. We bring them to SUN in our Pilatus PC-12 or Citation 560 Encore about every two months. These aren't events or business trips. These are people going home.

Every one of those visits now costs our owners about \$700 in Atlantic ramp fees to drop them off, and another \$700 to pick them up, on top of the landing fee we pay the airport each time. During "Event" pricing, that climbs to \$1,500–\$3,000. We don't buy fuel at SUN, and we don't need a lounge, a GPU, or a car at the airplane. Our passengers are happy to walk through a gate with their bags. Yet \$1,400 or more per round trip has become the single biggest frustration our owners have with flying into the valley they love, and I am the one who has to explain it to them every time.

I've read your transient parking rules, and I want to be upfront: the PC-12 qualifies, but the Citation does not. Its certificated maximum weight is 16,300 lbs, and I understand the rule is written around that number. I also know that in practice we never land at SUN heavier than about 12,000 lbs, and on a drop-off we are on the ground only long enough to open the door and unload. I'm not asking you to ignore your rules. I'm asking whether there is any room within them. That could be a waiver, a quick-turn drop-off allowance, or an airport-managed spot where we could unload and depart without the FBO charge.

I've spent more than 60 years in aviation, including a career as an airline captain, and I have great respect for the people who keep airports like yours running safely. If the answer is no, I'll understand, and I'll thank you for taking the time to consider it. But if there is any way to help us, it would mean a great deal to a handful of families who simply want to come home without feeling penalized for it.

Thank you for your consideration. I'd welcome a phone call if that's easier.

With sincere respect,

Bo Corby
